

Re: Funded Summer Jobs for Young People

UK Youth are wishing to connect with employers who can offer placements for The Summer Jobs Programme.

Running from **July to September 2025**, The Summer Jobs Programme aims to combat the barriers that many young people face in gaining employment by fostering career development, personal growth, and positive engagement. It is specifically designed to reduce the risk of youth violence by providing structured opportunities that empower young people and build brighter futures. The programme will run in **North East, Yorkshire, South Wales, Greater Manchester, West Midlands and London**.

The programme includes a **one-week pre-employment training** for the young people, followed by a **five-week paid work placement**. By taking part, employers will not only help to transform lives but also:

- Diversify their workforce by connecting with young talent.
- Give their team a chance to develop their leadership and mentoring skills.
- Demonstrate their organisation's commitment to social impact.
- Access additional staff resource for the summer

Here's the ask from employers:

- Provide a **five-week work placement** (25 hours/week).
- Assign a supervisor to support the young person.
- Attend a **full-day, in-person training session** in June to set everyone up for success.
- Make a **reasonable financial contribution** to support the programme's costs.

Below, you will see the breakdown of location by borough. If your outdoor centre is within a 30-minute public transport journey to any of these areas, it would be great to have your organisation participating in the programme.
