Ready to take your outdoor passion to the professional level? Stop just doing it on weekends. Train in-person with expert coaches, master navigation, safety, and leadership, and graduate with industry-recognised qualifications. Turn your lifestyle into your pay check.
Our next Instructor Training Course starts on 27th October 2026 or the 6th July 2027 and is based in the Scottish Highlands. The programme is designed for people who want to develop the skills, confidence and qualifications needed to begin working in the outdoor industry.
Training takes place in the Cairngorms across a range of environments, including water, mountain, snow and rock. The course is practical and hands-on, combining coaching, personal development and real-world experience with support from experienced instructors.
At a glance, the course includes:
· 16–22 weeks of outdoor instructor training.
· Up to 30 industry-recognised qualifications.
· Development across paddlesports, climbing, hill walking, snowsports and multi-activity instruction.
· Training in the Cairngorms and wider Scottish Highlands.
· A clear pathway towards outdoor instructor opportunities after the course.
You don't need to start as an expert. The course is aimed at people who are enthusiastic, water confident, comfortable spending time outdoors in all conditions, and keen to develop their hill walking, paddling and climbing skills.
If you'd like to read more or watch the course video, you can visit our Outdoor Instructor Training Course page. We're also happy to arrange an informal chat if you'd like to talk through the course, your goals, or whether it could be the right next step for you.
